

Important New Program!

Have you ever...

Been curious about how people (including yourself) learn math?

Wondered what it would be like to teach math at the K-12 or college level?

Wanted to become a better, more reflective learner

Wished you could be paid to take a math class?

(This part is only a possibility at the moment.)

If you answered yes to any of these questions, please watch the Fall 2011 schedule for

Math 215 Introduction to Teaching Mathematics. 3 units

This course includes observation in actual math classrooms in local middle and high schools as well as in-class seminar discussion. It is part of a Minor in Mathematics Education at UCSD. With this minor, you could complete a Master's and earn a single subject credential in math in 15 months after your bachelor's degree.

For more information, please fill out and return the form below. You can also keep in touch with Professor Judith Ross at juross@sdccd.edu

-----If you are interested, please fill out and give this part of the form to your teacher or to Judith Ross. You will be sent updates on the class as information is available.
