

# **PRECALCULUS**

**KEN KUNIYUKI  
SAN DIEGO MESA COLLEGE**

# **TABLE OF CONTENTS**

Chapter 0: Preliminary Topics
Chapter 1: Functions
Chapter 2: Polynomial and Rational Functions
Chapter 3: Exponential and Logarithmic Functions
Chapter 4: Trigonometric Functions
Chapter 5: Analytic Trigonometry
Chapter 6: Topics in Trigonometry
Chapter 7: Systems
Chapter 8: Matrices and Determinants
Chapter 9: Discrete Mathematics
Chapter 10: Conic Sections, Polar Coordinates, and Plane Curves

## **COLOR CODING**

Warnings are in red.

Tips are in purple.

Calculus comments are (sometimes) in green (clover).

## **TECHNOLOGY USED**

This work was produced on Macs with Microsoft Word, MathType, Adobe Illustrator, Adobe Acrobat, and Mathematica and Calculus WIZ.

## **CONTACT INFORMATION**

Ken Kuniyuki:

Email address: [kkuniyuk@yahoo.com](mailto:kkuniyuk@yahoo.com)

Website: <http://www.kkuniyuk.com> (various course notes and exams are available)

Feel free to send emails with suggestions, improvements, tricks, etc.

## **LICENSING**

This work may be freely copied and distributed without permission under the specifications of the Creative Commons License.

## **PARTIAL BIBLIOGRAPHY / SOURCES**

Algebra: Blitzer, Lial, Tussy and Gustafson

Trigonometry: Lial

Precalculus: Axler, Larson, Stewart, Sullivan

Calculus: Larson, Stewart, Swokowski

Complex Variables: Churchill and Brown, Schaum's Outlines

Discrete Mathematics: Rosen

Online: Wikipedia, Wolfram MathWorld

Other: *Harper Collins Dictionary of Mathematics*

People: Larry Foster, Laleh Howard, Terrie Teegarden, Tom Teegarden (especially for the Frame Method for graphing trig functions), and many more.
