

Chairs' Council Meeting
Transfer Center Update
5/14/08

To clarify any confusion regarding TAG students being admitted/denied, if students meet all provisions of TAG, they are admitted. If they do not meet the provisions, it is possible that they are denied.

TAGs are not going away!

UCSD TAG is changing starting Fall 2009 applicants.

For Winter 2009, Spring 2009, students need to follow the traditional UCSD TAG core. Winter deadline is May 23, Spring deadline is August 23.

Starting Fall 2009 to Winter 2011:

- GPA will need to be a 3.0 at time of application
- Admission cycle will be for Fall and Winter only – no more Spring
- Winter is for TAG students only
- Core courses will be the IGETC (this is a change from the past)
- There will no longer be a guarantee of a specific college within UCSD
- College level math and 2 English courses must be done a year prior to transfer (end of prior fall for Fall admits, end of summer for Winter admits)
- Contract is paperless, but Mesa is having students sign the forms for documentation and communication purposes
- TAG workshops are conducted both on campus and online. Students interested in UCSD TAG are being directed to one or the other. Students transferring in Winter, Spring 2009 are being directed to the on campus workshops at this time as we are finishing them out.
