A four-week summer residential program (June 20– July 17) hosted within the medical school at UCSD for community college students who are interested in health professions as well as biomedical science research. \$2,340 stipend/student is provided to cover cost of room/board and taxes.

Program activities include individualized mentoring, health career counseling, admission test preparation courses, study and time management skills workshop, health-related internship opportunities and informal meetings & social events with medical students.

Eligibility Criteria:
UniversityLink and TAG students interested in the health sciences.

Completed a minimum of one semester at the community college;

Be enrolled in a minimum of 12.0 semester units during the spring semester; 2.80 or higher GPA
